

Vortex Blastair® aircannon
V4100HT
Infrared / visible image view

1. Vortex Blastair® V4100HT fitted with a refractory straight nozzle and installed on a cement kiln riser duct.

2. No cold point display in front of the V4100HT blaster, all is hot indeed! meaning no build up accumulation! (a build up is a cold point)

3. This Vortex Blastair® is operating correctly and avoiding any build up for 1 year operation.
